

HOLY FAMILY CATHOLIC ACADEMY

LEADERS, THINKERS, GROUNDED IN FAITH

Quotes from our parents....

“We are so happy we moved our children to HFCA’s middle school. It is a gem of a school right under our noses that prepares our kids for high school and beyond with rigorous academic expectations and well-rounded thinking.”
A.N.

“HFCA’s curriculum was a great building block to the expectations in high school. Our son was ready for the pace of a high school classroom and made a very smooth adjustment. What a bonus for him to discover that this preparedness also meant he could easily add a sport or club without interfering with his workload.”
P.K

“My daughter was recognized for academic excellence in social studies at St. Viator. She could not have received this without her HFCA teachers paving the way and honing her critical thinking skills.” J.M.

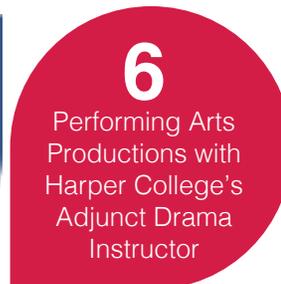

Please join us for a special Parent Information session:

HFCA Middle School— Preparing Students for High School and Beyond Wednesday, 4/26 @ 6pm in multitorium

The evening will be an interactive experience focusing on HFCA’s unique approach to STEM, core content areas, as well as performing arts.

We will discuss how:

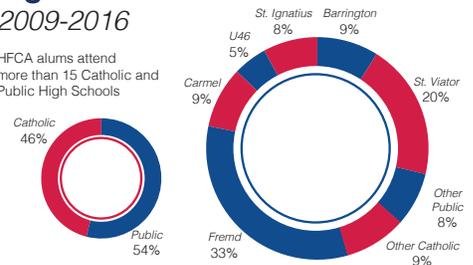

- Our supportive and caring community engages students to take responsibility, develop healthy relationships, and perform to their full academic potential.
- Our nationally recognized middle school curriculum and instruction equals or exceeds area high schools’ entrance expectations ensuring our students successfully transition to high school.

high school matriculation

2009-2016

HFCA alums attend more than 15 Catholic and Public High Schools

- Our commitment to continuous improvement. Kate and Laura will speak to some new initiatives the middle school team is pursuing, including best practice approaches to homework.
- Our alums have valued their HFCA middle school experience. We will have Brian Rosenwinkel (HFCA'13) as a guest speaker along with a panel of other alums to answer questions and share how HFCA prepared them as “leaders, thinkers, grounded in faith.”

This information session will be followed by a presentation by Devorah Heitner, PhD, and author of Screenwise, Helping Kids Thrive & Survive in Their Digital World.

We trust these presentations will be valuable for current and prospective parents of students of all ages. All are welcome.

This is a perfect event to introduce HFCA to your friends!
